Secord Family Garments A Magnificent Donation

Richard Y. Secord, well known scion of the Edmonton pioneering family, delved into his "hope chest" on Monday, 19 October, and presented to the University a collection of lady's garments and accessories. The garments, worn by members of the Secord family and especially Mr. Secord's mother, will be housed in the Faculty of Home Economics Historic Costume and Textile Study Collection.

Inasmuch as they span most of the hundred-year history of the Secord family in Edmonton, the garments—bodices, dresses, slips and the like—constitute a remarkable physical record of fashion and textiles of the highest quality. For example, there is a Tape Lace opera coat dating to the 1900s; a Pongee silk (Japanese) dress made in 1911; and examples of chiffon, Cluny and Torchon lace. There are also slips made of Bobbin lace, a dress from the 1930s made of brocaded velvet, and an absolutely superb ball gown festooned with gems. This last dress, according to Mr. Secord, was never worn by his mother. His mother, he said, was too modest to wear so ostentatious a garment.

In presenting the garments, received on behalf of the University by Chancellor Forest, Mr. Secord spoke briefly about his family which first settled on land west of Edmonton to raise crops and livestock. Later, the family moved to what was "undoubtedly the finest home ever built in Edmonton." The family eventually

sold that house to the City, trusting that it would be made into an art gallery or something of that sort. The City, Mr. Secord said with regret, turned the house over to a developer and the site is now occupied by a high-rise structure.

Mr. Secord also paid homage to the memory of his mother. She was, he said, equal to the house, was a "good buyer and a remarkable person." That the late Mrs. Secord was a person of consummate taste is well evidenced by the garments deposited in the Historical Costume and Textile Study Collection.

The Historic Costume and Textile Study Collection, in a sense, is almost as old at the University itself. Ever since the study of home economics was introduced to this campus in 1917, costumes, accessories (hats, shoes, undergarments, etc.), and textiles have been collected. Some of the over 2,000 items in the collection date back to the eighteenth century. Cataloguing and more formal collection procedures were developed in 1972 when Anne Lambert, who introduced the proceedings on 19 October, joined the University's staff.

Anne Lambert, an Associate Professor in the Department of Clothing and Textiles, is responsible still for the collection. The collection itself is not merely used for instructing students in Professor Lambert's department but is a valuable resource for the wider community. For example, students of the stage

visit the collection for ideas on costume design, and those in education make use of the collection, as do other people interested in the whole sphere of fabric, fashion, and history.

The Historic Costume and Textile Collection, which among other things also boasts an array of Guatemalan textiles, has now reached a new and exciting phase in its development. According to

Professor Lambert, the area in which the collection will be housed shortly within the Home Economics Building (B19) is about to undergo major renovations. It will become, in Professor Lambert's words, the "most electronic compacted study storage system in Canada." Nothing is more appropriate for one of the more interesting teaching and study facilities in Alberta. □

Students' Research Day

Mary Hurlbut, Lewis Kay, Michael Meier, and Angela Pistawka are the toast of their peers in the Faculty of Medicine. They were chosen winners at the Fourteenth Annual Students Research Day held on 21 October. Honorable mention was accorded Amar Kureishi and Harry Mueller. The aforementioned

and sixteen other second and third-year medical students gave papers on research projects conducted during the summer. Each paper concerned the deductive aspects of medicine and each had to be presented within twelve minutes. Questions could then be raised by the judges—Lionel McLeod, President

of the Alberta Heritage Foundation for Medical Research; Gordin Kaplan, the University's Vice-President (Research); and Alan Gilbert, Professor of Medicine—and the audience.

The judging was based on the planning that went into the project, the techniques and methods used, the student's contribution to the unit housing the project, the execution of the project, the quality of the summary, the quality of the presentation including the illustrations, and the results, if any.

The winning efforts were: "In Vitro Transformation of Estrogen Receptor (ER) from Human Breast Tumors" (Miss Hurlburt); "19F-Nuclear Magnetic Resonance (NMR) Spectroscopic Characterization of the Temperature-dependent Conformational Changes of Heavy Meromyosin (HMM)" (Mr. Kay); "Molecular Epidemiology of Beta Lactamase-Specifying Plasmids in *Haemophilus Ducreyi*" (Mr. Meier); and "Reversible Dissociation of the Oligomeric Forms of the Anion

Exchange Protein of Human Erythrocyte Membranes by Ionic Detergents" (Miss Pistawka).

The winners were awarded a cash prize and dinner but of far greater value is the admirable start toward careers in research that they and the other participants have gained. Mr. Kay, for one, is pressing on resolutely—when the time came for him to receive his award he was hard at work in the lab.

Students' Research Day honors the memory of Michael Emery, a research associate in ortho-

paedic surgery. Dr. Emery, regarded by Faculty of Medicine staff as "a teacher and scientist of the highest potential," was killed in a car accident at the age of thirty-four.

The Alberta Heritage Foundation for Medical Research and the Michael Emery Memorial Fund were instrumental in making Students' Research Day 1981 possible. Wynne Rigal, Division of Orthopaedics, Department of Surgery; and the Office of Scientific Affairs coordinated the event. □

Lutheran Chaplaincy Twenty-five Years Old

Twenty-five years ago, on 6 November 1956, the first Lutheran Student Centre in Canada was dedicated at The University of Alberta. This pioneering venture was also the first Protestant campus ministry in all of Canada. Rev. Donald Voigts was that first Lutheran chaplain. In company with a few others—including then Professor of Physical Education, Arthur Eriksson—Pastor Voigts mortgaged personal possessions to purchase the Lutheran Student Centre located on 91 Avenue near 111 Street.

From those beginnings Lutheran Campus Ministry has extended to many campuses throughout Canada.

In the mid-1960s, the University's expansion expropriated the Lutheran Student Centre property for the Humanities Centre construction. Another site was purchased at 11122 86 Avenue which remains the Lutheran Student Centre to this day. At roughly the same time, with the Students' Union Building under construction, office space for four Protestant chaplains was provided by the Students' Union. The Roman Catholic chaplains remained in their St. Joseph's College site.

Rev. Voigts moved to Saskatoon 1959, to serve as Lutheran Chaplain at the University of Saskatchewan. He later became national secretary for campus

ministry in the Lutheran Council in Canada's Winnipeg headquarters. He served in that capacity until shortly before his death in 1976.

Rev. Herb Keil succeeded Voigts as chaplain in 1959. Keil is currently the Assistant to the President of the Evangelical Lutheran Church of Canada, based in the Vancouver area.

In 1968, Rev. Kenneth Kuhn began his work as Lutheran Chaplain at The University of Alberta. Kuhn, a PhD candidate in the University's Department of Sociology, recently began work

as pastor of Redeemer Lutheran Church in Vancouver.

In 1977, Rev. Stephen Larson was called by the Lutheran churches to be the Lutheran Chaplain at this University. Larson is the present chaplain.

During this 25th Anniversary year, several events are scheduled, including:

An Anniversary Banquet on 7 November at 6 p.m. in The Ship of Lister Hall, for alumni, faculty, and friends of campus ministry.

An Anniversary "Service of Thanksgiving" on 8 November at

2:30 p.m. in Convocation Hall, featuring the Concordia College Choir, under the direction of Gordon Hafso.

An Anniversary Lecture Series, funded by the members of the Lutheran Life Insurance Society of Canada, will bring the following distinguished speakers to campus:

Krister Stendahl, from Harvard Divinity School, on 22 November; Norman Wagner, President of the University of Calgary, on 12 January; Rev. Risto Lehtonen, Secretary of the Department of Church Co-operation in the

Lutheran World Federation, Geneva, Switzerland, 24 January; Roland Miller, Dean of Luther College, Regina, 15 February; and Gail Ramshaw Schmidt, from New York City, the President of The Liturgical Conference, 16 March.

For information on these Anniversary events, or on the current ministries provided at The University of Alberta by Lutheran Campus Ministry, please contact Rev. Stephen Larson in the Chaplains' Offices, 158C Students' Union Building. □

Jim Vargo (Occupational Therapy) presented the invited keynote address, "Full Participation and Equality After 1981: Beyond the Year of Disabled Persons," to the School Counsellors' Association of Manitoba Annual Conference in Winnipeg, 15 and 16 October 1981. Dr. Vargo also conducted a half-day workshop titled "The Counsellor as a Resource Person in the Mainstreamed Classroom."

Baha Abu-Laban, Professor of Sociology and Acting Director of the Office of Institutional Research and Planning, has been elected as President of the Canadian Ethnic Studies Association for a two-year term effective January 1982. The election took place at the Association's Biennial Meeting, which was held in Edmonton, 15 to 17 October 1981.

A recent visitor to our campus was Richard Schade of the University of Cincinnati (19 and 20 October). Professor Schade delivered a public lecture, sponsored by the Department of Germanic Languages, on

"Virtuous Sentiments and Excellent Lessons": On the Reception of Lessing in 18th Century America." He also led a seminar on "The Introduction of Minnesang into 18th Century Germany."

Georges Guichon to Deliver Boomer Memorial Lectures

Georges Guichon, Professor of Chemistry at the Université "Pierre et Marie Curie" (Paris) and head of the Department of Analytical Chemistry at the Ecole Polytechnique, will deliver the Edward Herbert Boomer Memorial Lectures from 9 to 13 November in V107 Chemistry Centre. Professor Boomer was associated with our Department of Chemistry from 1925 until an untimely death in 1945.

Professor Guichon is a highly renowned researcher who has made extensive and "numerous contributions in all areas of chromatography: gas, high performance liquid (HPLC) and," according to a notice from the Department of Chemistry, "thin layer; analytical and preparative; theoretical; applied; and instrumentation."

"These contributions include investigations on new column packings and column technology, HPLC of metal complexes, interfacing of HPLC with mass spectrometry, analysis of petroleum, improved chromatographic detectors, optimization of thin-layer chromatography, and chromatographic theory, among many others."

Professor Guichon, who is a graduate of the Ecole Polytechnique and holds a doctorate from the University of Paris, has been the author or co-author of some three hundred publications, one book, and two films. Among his professional affiliations and

honors, Dr. Guichon is the first person outside North America to sit on the editorial advisory board of *Analytic Chemistry*. He is Chairman of GMAS, the French society for analytical chemistry. Dr. Guichon has been the recipient of the Stephen Dal Norgare Award, the Tswett Medal, and the Silver Medal of the Centre National de Recherche Scientifique.

The program of lectures to be delivered by Dr. Guichon follows. It will be reprinted in next week's *Folio* under the rubric "Lectures and Seminars." On 9 November, at 11 a.m. the topic will be "Optimization in Liquid Chromatography." The next day, Tuesday, 10 November, Dr. Guichon will discuss, at 4 p.m., the "Preparation and Operation of Liquid Chromatography Columns of Very High Efficiency." On Wednesday, 11 November (Remembrance Day), 11 a.m., the lecture will be on "Analysis of Polar Compounds in Heavy Fractions of Crude Oils." Thursday, 12 November at 4 p.m., will see Professor Guichon talk about "Open Tubular Columns in Gas Chromatography—Theory and Practice." The Edward Herbert Boomer Memorial Lecture Series will close with Dr. Guichon explaining "Advances in Thin Layer Chromatography." That lecture will take place on Friday, 13 November, at 11 a.m. □

Notices

Corrections

A couple of weeks ago, *Folio* published notices about committees for the review or selection of department Chairmen. We, therefore, apologize to R. Silverman—Psychology not Sociology was meant. Also, the Committee set up for the Department of Industrial and Legal Relations is a Selection Committee and not as reported, a Review Committee.

Interested in Fostering Teens?

There will be an evening information session on 4 November, from 7:30 to 9 p.m. at the Youth Development Centre, 13120 34 Street. Topics to be discussed will include treatment programs for troubled teens, how to

become a foster parent, and what to expect as a foster parent for such people. The Youth Development Centre is sponsored by Alberta Social Services and Community Health. For more information, telephone Marsha Littlefair at 476-1331, extension 290.

Alberta Culture Library

The Alberta Culture Library will remain open each Wednesday until 6 p.m. for a three-month trial period beginning 4 November. During this period, mail service will be cancelled for Edmonton area clients. (Since 11 November is Remembrance Day, the library will be open until 6 p.m. on Tuesday, 10 November.)

information which would govern policy decisions and the activities of the CAFA Council and will be responsible for maintaining liaison with representatives of government.

Ideally, a candidate should have a thorough understanding of Alberta universities, legislation governing universities, and the relationship between faculty associations and universities, as well as between universities and government. A graduate degree would be an asset.

Salary will be determined by experience and qualifications. A full benefit program is available.

The appointment will be for an initial limited term, subject to review in the last year of appointment. The office will be located in Edmonton.

Résumés should be sent to: Gordon Unger, Secretary, Selection Committee, 347 Athabasca Hall, The University of Alberta, Edmonton, Alberta T6G 2E8. (403 - 432-5321)
